PLANT MADE 20,000 METERS IN 1949

SCHEDULED 60,000 METERS FOR 1950 -- Moskovskiy Bol'shevik, No 29, 3 Feb 50

In 1949, the Moscow Gazoapparat Plant started production of and completed 20,000 newly-designed gas meters which surpass all existing models in quality. A special shop, scheduled to produce 200 meters per day, has been set up on the conveyer line procedure. In addition to machine tools the shop also has two assembly conveyers, a testing station, and control points. In 1950, the plant is scheduled to produce 60,000 of these new meters.

METER USES DIAPHRAGM PRINCIPLE -- Vechernyaya Moskva, No 2, 3 Jan 50

A shop recently opened in the Moscow Gazoapparat Plant is devoted entirely to the production of a new type gas meter, working on the diaphragm-breathing principle. It is furnished with valve systems of membrane and metal, whose manufacture costs one-half that of the old-type valve. There are two assembly lines in the shop which have turned out 20,000 gas meters so far.

PLANT PRODUCES ELECTRIC-METER -- Sovetskaya Litva, No 75, 29 Mar 50

The Vil'nyus Electric-Meter Plant is becoming an active enterprise. At present it has several shops in operation for the production of parts, and has completed production of the first group of electric meters.

TOPS GAGE PRODUCTION QUOTA -- Krasnyy Flot, No 277, 24 Nov 49

Production at the Tallin Measuring Instruments Plant is now ten times higher than in 1946. It has already turned out hundreds of water gages over its 5-year quota.

SCALES PLANT SPEEDS OUTPUT -- Sovetskaya Kirgizia, No 232, 27 Nov 49

The Kiev Scales Plant imeni Dzerzhinskiy has completed the Five-Year-Plan with respect to gross and commodity production. Compared to last year, production of automatic scales for grain, cotton, coal, and sugar beets has increased 68 percent. Recently, the plant produced a complex type of scale for weighing construction materials in large-scale constructions. Models have already been dispatched to building enterprises.
